Transformer Protection Application Guide EEP

November 5th, 2017 - Specific applications Some specific applications that affect protection are A tap changer flashover can ordinarily be repaired in the field but if this fault is allowed to evolve into a winding fault the transformer will need to be shipped to a repair facility hence protection that can rapidly sense a tap change fault is desirable

DEVOLTAGE TRAINING CENTRE

April 28th, 2018 - DEVOLTAGE TRAINING CENTRE has successfully trained and accredited over a thousand artisans and management staff to become an integral part of a current and future safe working force in the High and Medium Voltage community of Africa and beyond
